The striking Gila Trackside Services Miata has been upgraded! Our 1999 Mazda Miata is now, for all intents & purposes, a 2004 MazdaSpeed. Driveline, interior and suspension have been upgraded (except for transmission, which remains a 5-speed). Still with competition-type seats with 5-point racing harnesses on both sides, the car sports a double-loop roll bar, with add-on roll bar extension for drivers taller than 5'2". Car has 5-speed manual with .390 rear end, for longer legs and fewer shifts. Famous driving coaches who have driven this car in its new incarnation have only good things to say about it. Now it's your turn!

Daily rental is only \$540.00. Tires are NT-01's on 15" wheels, and brakes are the MazdaSpeed big brakes. Rental includes fuel and full track support. Car is suitable for New Member Orientation, and for existing member driving in any of the street groups. Want to add HotLaps Sessions? Add \$150.00/day all-inclusive.
